Late Model Floorboards

These alternatives to the stock floorboards fit all 5-speed Touring and FL Softail models from 80-12. The oval 'shaker' set has the mounting brackets offset from the center of the floorboards. Depending on which way they're installed, you'll end up with your feet approximately 1" further ahead of, or further behind, the stock position. This permits you to tailor your foot placement for increased comfort. The rectangular 'shaker' floorboards are replacement items for crash-damaged or used motorcycles. Compatible with Original Equipment or CC replacement parts.

★ REVTECH DIGITAL FUEL OPTIMIZER ★

Rev Tech DFO Generation 3.5 Adjustable Fuel Injection Tuner

A load-based fuel injection module that is a direct plug-in unit and does not require any splicing or modifications to your motorcycle wire harness during installation. DFO modules come pre-loaded with base maps for different models which can then be fine tuned for each individual's riding style and bike with three buttons. Tuning is so easy that laptops and dynos are not required to maximize your motorcycle's performance. The DFO Gen 3.5 detects the exact amount of load on the engine at any RPM and any road speed and delivers the perfect amount of fuel to the engine for optimum performance.
