

FXBB
STREET BOB 2020

WHAT'S --- BOAR?

Since 2009, Custom Chrome Europe has inspired the scene with a new slogan: „Bolt On and Ride“. While neither „Bolt On“ nor „Ride“ are new themes in a long established and creative customizing scene, the CCE team has successfully combined both themes into now annually built custom bikes which are based on existing motorcycle models that are modified with the latest and best parts available from the worldwide aftermarket. „Bolt On“ stands for easy to mount custom parts, some to be installed by the owner or garage customizers, others, more sophisticated parts, by professional CCE partners, custom shops or authorized Harley-dealers - but it never stopped the individual builder from further individualization, be it by color, surface finish treatment, engravings or what ever creative ideas come to mind. And the “Ride” part? This is not just for pleasure, but assures the CCE team that these parts will work under rough and sometimes extreme conditions when the CCE team is “On the Road” to events all over Europe. But yes, the “Ride” part is also fun ...

How advanced and sophisticated this CC 50th Anniversary Custom really is becomes obvious when thinking back twenty, ten or only five years: Who would have believed that a dual air suspended rolling chassis would become an almost “Bolt-On” option, ready to be mounted at any stock Softail Harley?

Renowned German customparts and -bike manufacturer Thunderbike had already built an impressive number of custombikes for CCE's successful “Bolt On And Ride” bike lineup, so they were the logical choice for this challenging job! With Arlen Ness, Performance Machine, BSL, Legend and CCE's own Santee and RevTech brands in the birthday packet, experienced traditional manufacturers merge some of their finest parts in a high class tribute custombike to celebrate 50 years of customizing excellence and creativity. Only when you hear the air-compressors running and see the bike lifted from „show parking“ to impressive riding height you will realise how much technology has advanced - and yet how easy and rideable customizing has become!

A man with a beard and sunglasses, wearing a plaid jacket and a helmet, is riding a teal and black Thunderbike motorcycle on a paved road. The motorcycle has a large round headlight and a teal fuel tank. The background shows a green field and a forest of tall trees.
