World's Finest Products For Harley-Davidsons

Le Pera 'Hot Rod' Series Seats

Being a company that was founded in the 70's, Le Pera is absolutely digging the 'throw back' styles of the bikes today. Bobbed, chopped, flat colors, pinstriping, all of these design cues are at the essence of what a custom bike use to be. So as a tribute to the bikes of the early days Le Pera has introduced their 'Hot Rod' series of seats. Simple clean designs available on the popular 'Bare Bones' solo seat, that will truly bring out the soul of your Harley today and what it was decades ago. Available in 5 different designs for Softail, Dyna, and Sportster models.

**Bel-Air Solo
Seat**

**OL' 32 Solo
Seat**

**Daddy-O
Solo Seat**

**Avanti Solo
Seat**

For Softail Models

Fits all 84-99 Softail Models

- 641321** Diamond Stitch Solo Seat
- 641326** Diamond Stitch Pillion Pad
- 641322** Bel-Air Solo Seat
- 641327** Bel-Air Pillion Pad

Windows

Low-Drags

Custom 1" Handlebars by Biltwell Inc.

Biltwell handlebars are precision crafted with 100% seamless 4130 chromoly. The wall thickness of our tubing is a burly .120". Most bars are available smooth for custom applications, or with dimples to accommodate original equipment throttle, brake and clutch assemblies. (Clubmans are not dimpled so you can flip them either way, chopper or cafe style).

Tracker

Racy and simple design is comfortable and built for performance. 30" wide, 5.25" center width, 1.75" rise, 2" pull back

633228 Tracker bars, non-dimpled, black

633229 Tracker bars, non-dimpled, chrome

633230 Tracker bars, dimpled, black

633231 Tracker bars, dimpled, chrome

Clubman

Can't find 1-inch Clubman bars for your café-inspired H-D-based custom? Look no further. 29" wide, 6.75" center width, 0.5" rise, 6" pull back

633206 Clubman bars, non-dimpled, black

633207 Clubman bars, non-dimpled, chrome

Low Drag

Riser-less bar with 1/2x13 threaded insert welded into the bases of each bar makes for a sturdy, compact and strong design. Bolt these up and trim the ends just as narrow as you can stand for a nice lane-splitting profile. 26.5" wide, 3.5" center width, 3.5" rise, 3" pull back

633224 Low Drag bars, non-dimpled, black

633225 Low Drag bars, non-dimpled, chrome

633226 Low Drag bars, dimpled, black

633227 Low Drag bars, dimpled, chrome

Keystone

Looking for still more style and originality for your custom bike? Consider the Keystone bar. Similar to the Z Bar in every detail, but the uprights are angled inward for a more aggressive look. 28" wide, 6.5" center width, 2" rise, 2" pull back

633202 Keystone bars, non-dimpled, black

633203 Keystone bars, non-dimpled, chrome

633204 Keystone bars dimpled, black

633205 Keystone bars, dimpled, chrome

Frisco

Chopper freaks in the 1960's cooked up some pretty wild handlebars for their custom death traps, especially in California's fabled San Francisco Bay Area. Our Frisco bar pays homage to the bikes of guys like Sonny Barger, Arlen Ness and Tobie Gene Levingston. 29" wide, 5.75" center width, 7" rise, 1" pull back

633208 Frisco bars, non-dimpled, black

633209 Frisco bars, non-dimpled, chrome

633210 Frisco bars dimpled, black

633211 Frisco bars, dimpled, chrome

8" Chumps

Nice low rise bar that works with just about any bike. Want something modern and comfortable but not wacky styling? Maybe Chumps are just the ticket. 29.5" wide, 5.25" center width, 8" rise, 6.5" pull back

633216 Chumps bars, non-dimpled, black

633217 Chumps bars, non-dimpled, chrome

633218 Chumps bars dimpled, black

633219 Chumps bars, dimpled, chrome

12" Apes

Traditional Apehangers without the ridiculous dimensions of today's contemporary tall bars. These are about as narrow as you can go at the base and still mount up to a stock HD clamp. 30.5" wide, 5.25" center width, 12" rise, 9" pull back

633212 12" Apehanger, non-dimpled, black

633213 12" Apehanger, non-dimpled, chrome

633214 12" Apehanger, dimpled, black

633215 12" Apehanger, dimpled, chrome

Windows

Built for speed in the attack position these bars are strong and narrow. Trim the ends off as much as possible and start dodging mirrors. 27.5" wide, 5.25" center width, 9" rise, 1.5" pull back

633220 Window bars, non-dimpled, black

633221 Window bars, non-dimpled, chrome

633222 Window bars dimpled, black

633223 Window bars, dimpled, chrome

Performance Machine Contour Handlebar Controls

Contour Hand Control Complete Package

Complete PM Contour hand control package, includes brake master cylinder (9/16" only), clutch lever (cable or hydraulic) right & left 3 button switches, brake light switch, dual cable throttle housing, clutch side spacer, and even a set of our Contour grips! Will not fit 08-09 FLH models.

684342 Complete set with hydraulic clutch, contrast cut

684343 Complete set with hydraulic clutch, chrome

684344 Complete set with cable clutch, contrast cut

684345 Complete set with cable clutch, chrome

PM's Contour machined brake master cylinder is a thing of beauty! The gracefully curved one piece body, and refined internals represent the very best in CNC artwork.

Contour handlebar brake master cylinder

Optional brake light switch can be ordered separately. Designed with the custom builder in mind, billet aluminum has never looked so good!

684328 9/16" bore (single caliper), contrast cut

684329 9/16" bore (single caliper), chrome

684332 11/16" bore (dual caliper), contrast cut

684333 11/16" bore (dual caliper), chrome

684330 Brake light switch 9/16" bore (single caliper), includes 36" Wire leads, black

684331 Brake light switch 9/16" bore (single caliper), includes 36" Wire leads, chrome

684336 Brake light switch 11/16" bore (dual caliper), includes 36" Wire leads, black

684337 Brake light switch 11/16" bore (dual caliper), includes 36" Wire leads, chrome

Replacement levers

For hydraulic control units only

684296 Replacement brake lever short, black

684297 Replacement brake lever short, chrome

684298 Replacement clutch lever short, black

684299 Replacement clutch lever short, chrome

Contour clutch perch assembly (cable)

The PM Contour Clutch Lever and perch are perfectly matched to our master cylinder and switches. Works with stock cable. Will not work with HD switch housing.

684302 Early models, black

684303 Early models, chrome

684300 84-06 models, black

684301 84-06 models, chrome

684326 Fits models 07-10 w/ starter interrupt switch included, black

684327 Fits models 07-10 w/ starter interrupt switch included, chrome

Joker
MACHINE

Joker's Viewtech I Mirrors

Unique "Pocketed" aircraft milling design along the stem for lightness. VIEWTECH mirror stems and heads are completely CNC machined from billet aluminum (not cast), light-weight, strong and fully adjustable in every direction to fit just about everyone. Once the mirror is positioned, a simple twist of a wrench keeps them at your desired tension setting right where you want them, unlike the competition's non-adjustable designs that fail with time. The swivel post assembly is completely serviceable and is machined from stainless-steel alloy to ensure corrosion free operation. Available in show chrome or hard black anodized finishes. A direct bolt-on fit for late model Harley hand controls (including V-Rod) and most aftermarket hand controls!

Müller Bob Style Triple Trees for Sportster Models 04-11

Features:

- 217 mm (8,5") wide (as seen on 48 Sportster)
- CNC-machined from 40 mm thick aluminum
- Mounting hardware and axle (included) made of stainless steel
- Available with 0° or 5° rake
- Good handling even with 5° rake
- Polished or black anodized
- Approval
- Fits Sportster models

Bob Style triple trees with 0° rake

- 653155** For models 04-07, polished
- 653156** For models 04-07, black anodized
- 653157** For models 08-, polished
- 653158** For models 08-, black anodized

Bob Style triple trees with 5° rake

- 653159** For models 04-07, polished
- 653160** For models 04-07, black anodized
- 653161** For models 08-, polished
- 653162** For models 08-, black anodized

PROGRESSIVE
S U S P E N S I O N

Performance Fork Springs by Progressive Suspension

Progressively-wound springs are made using the finest spring material with a Manufacturer's Lifetime Warranty. They eliminate sag, reduce nose dive under braking, improve stability and increase ride comfort.

Stock-Height Spring Kits

Sold in sets that include correct spacers for the application.

- 28441** Fits 41mm forks on FLHT/FLTR models from 80-11 (except 02-05 model with cartridge style forks), FLHR Road King models from 94-12, all Softail models from 84-12, FXDWG models from 84-05 and all 4-speed FX/FL models.
- 680078** Fits 41mm forks on FLHT/FLTR models from 02-05 with Cartridge style forks (except Road King)
- 680090** Fits FXDX/T models from 00-05
- 28443** Fits 39 mm Showa forks on 87-12, FXLR and 88-04 Sportster and FXR models (except Hugger, Convertible, Sport Edition and FXRT models)
- 696156** Fits 39mm forks on XL 883/R/C/L models and 1200/R/C/L models 04-12
- 28581** Fits 39 mm Showa forks on Sportster Standard and Deluxe models 92-03; Sportster 883 Hugger and 1200C 92-10; and Dyna Super Glide 95-05
- 28442** Fits 39 mm Showa forks on FXDL from 93-05; FXDS-Convertible from 94-05; FXDB and FXDC from 91-92; FXRS Sport from 87-94; FXRT and FXRS Convertible models 88-94
- 28440** Fits all 35 mm Showa forks from 75-87
- 28809** Fits V-Rod models from 02-12 and FXCW Rocker & Dyna models from 06-12.
- 696156** Fits 39mm forks on XL 883/R/C/L models and 1200/R/C/L models 04-12

Fork Lowering Kits

An easy and inexpensive way to drop the front end of your bike one or two inches. Includes progressively-wound fork springs, spacers, and lowering components.

28542 Fits 41mm forks on FLHT/FLTR models from 80-11 (except 02-05 model with cartridge style forks), FLHR Road King models from 94-12, all Softail models from 84-12, FXDWG models from 84-05 and all 4-speed FX/FL models.

680089 Fits all 49mm forks on FXD/B/L/C/WG/35 models from 06-12

28541 Fits 39 mm Showa forks on FXR models 87-94, XL models 87-03, FXDX 99, Dyna models (except FXDWG) 87-00

28540 Fits 35 mm Showa and Kayaba forks on all Sportster, FX and FXR models from 84-87

28810 Fits V-Rod models from 02-12 (drops the front end 1")

Note: Careful evaluation of fender-to-frame clearance is required when installing any lowering kit.

Progressive Suspension PiggyBack Shocks Progressive Suspension PiggyBack Shocks Inspired by racers, riders and those that demand more of their bikes than weekend coffee runs, the built in the USA 970 Series shocks combine a high pressure gas monotube design with deflective disc damping routed through two unique circuits and adjustable for compression damping via an easily accessible knob. Fits Dyna models 91-12.

633233 970 series piggyback shocks 12,5" long

Build your own Front Fender with the ZCB Construction Kit!

ZCB Front Fender Side Plates to be used with ZCB raw fenders. Universal fitments.

Wagner Fuel Tank Sealing

Fuel tank sealing set is a special treatment to stop corrosion inside of fuel tanks and to protect the fuel tank from further corrosion on a long-term basis. The fuel tank sealing set consists of a rust exchanger and a single-component resin for longterm coating.

Rust Exchanger:

- Stops corrosion immediately, total derusting no longer necessary
- Additionally converts rust into a non-corrosive metal compound.
- The rust exchanger is a very thin liquid and thus gets through all pores.
- It forms a violet-black layer, an ideal condition for the following treatment with the sealing.
- It saves times and money, neither intensive derusting, nor dangerous sandblasting or undercoating necessary.
- It may only be applied on dry, oil and grease-free surfaces
- Easy application, ready for use, protect from frost.
- Content 250 ml sufficient for tank treatments up to 80 ltrs. tank volume (or multiple applications on smaller tanks).

Single-Component Sealing:

- Forms a fuel and acid-resistant longterm coating.
- Single-component resin, thus universal application.
- Multiple applications possible.
- Economic in use.
- Content 500ml, sufficient for tank treatments up to 80 ltrs. tank volume (multiple applications possible on smaller tanks)

Billet Pop-Up Gas Caps by Matt Hotch Designs

- Gas caps are CNC-Machined from 6061 Billet Aluminum with a steel weld-in bung
- Available in a Smooth, 5-Star or Spun design
- Made in the U.S.A.

659120 Smooth flush pop-up cap & bung

659121 Smooth flush pop-up cap only

659122 5-Star pop-up cap & bung

659123 5-Star pop-up cap only

659124 Spun pop-up cap & bung

659125 Spun pop-up cap only

Replacement Parts

659126 Replacement steel weld-in bung

659127 Replacement o-ring for pop-up gas caps

M-Can Adapter a World Novelty from Motogadget!

M-Can - the adaptor for trouble-free installation of instruments directly at the OBD interface. With help of a tiny box the installation of sensors for speed or tach becomes superfluous. Every Harley Davidson from 04 on has an OBD interface (ON Board Diagnosis) in form of a 3-pole plug connector on the bike. With the digital adaptor M-Can which is simply plugged into this connector, instruments of the Motoscope series are linked directly to the digital data bus of the motorcycle. The installation and connection of sensors for speed and tach is not necessary anymore. Now this data is read directly from the diagnostic interface. The power supply of the instruments is also fed by the OBD interface. With this adaptor it's possible to connect a 'motoscope mini' without any other connection work on the motorcycle. Also the signal for the MIL (Malfunction Indicator Light) for trouble codes from engine and periphery can be indicated by connection of a LED / warning lamp. A complete exchange of the original instruments is possible and also customizing of the latest models is an option without reducing operational safety. The M-Can is only a tiny, fully molded box, an OBD plug and a long connecting lead to the instrument. It is resistant to vibrations and water. Operation is guaranteed up to under 5 V of on-board voltage and therefore corresponds to all SAE specifications for motorcycles. Not for CAN-Bus models.

Motoscope Mini

The Motoscope mini from Motogadget features a multifunctional digital instrument, which is extremely compact and lightweight. The LED display is a proprietary development by Motogadget especially designed for the Motoscope mini. This display represents an absolute novelty in the field of digital instruments. 251 ultra-bright LEDs form an almost rimless display area that provides for faultless readable indications and different modes of programming. Due to its unostentatious and elegant design and its superb visual and function-related quality the Motoscope mini is eminently suited to almost all two or four wheel custom vehicles - whether they are fighters, low riders, sports bikes, enduros, super motos or even quads, mini-Bikes, scooters and custom cars. The Motoscope mini can be either positioned prominently to enhance a vehicle's style or can be integrated unobtrusively for an absolutely clean look! And finally for all weight fetishists: a bicycle speedometer can hardly beat a weight of 32 grams including connection cable. The Motoscope mini comes including manual, sensor, mini push button, plug kit and 2 screws. With ABE.
