### **Jammer Riser Style Hollywood Handlebars**

We've adapted our "Hollywood" bars for use with risers on front ends with 3 1/2" centers. Made of 1" tubing, un-dimpled for use with pre-82 controls and measuring 34" from tip to tip, these handlebars have a 6" rise and feature a cable exit hole for those using our internal clutch and throttle assemblies shown elsewhere. These bars will give your ride an instant "old school" look! Made for Jammer by Paughco in USA.

## **Wannabe-Choppers CANIOX Module for CAN-BUS models**

Since 2011 several HD models are equipped with a CAN-BUS a.k.a. "HD-LAN". This internal communication system restrains certain replacement of components like the handlebar control switches. CANIOX has been developed to overcome this problem and to enable you to use custom handlebar controls e. g. from PM, Rebuffini, Joker Machine, RST or Ness (to name just a few of them). Up to now customizers had to disassemble the OEM CAN-BUS hand control units, remove the original electronic circuit boards and connect them to replacement switches. This has been a time consuming effort which destroyed the OEM hand control units, worth about 800 Euro (Set). It has been a risky job too because a single short-circuit due to a bad soldering of the wires could easily block the whole HD-LAN communication. CANIOX is a self-contained 53 mm x 73 mm x 16 mm small unit with wires of sufficient length to conventionally connect them to the handlebar wire harness. Colour coded wires and an easy but sufficient installation guide are facilitating the mounting of CANIOX. After installation CANIOX receives the switch signals of common handle bar controls and translates them into CAN-BUS messages for the HD-LAN system. • High Quality product made in Germany: All modules are fully multi-tested. Support from manufacturer by E-Mail!

## ThunderMax ECM with Integrated Auto-Tune System

### ThunderMax's Key Features & Benefits Include:

- Quick & Easy Installation
- Enhanced Overall Engine Performance
- Improved Throttle Response & Rideability
- Cooler, Smoother Running Engine
- Automatically Tunes As You Ride
- Grows With Your Bike
- Adjustable AFR Targets,
- Adjustable Idle Speed & Rev Limit RPM (minimum idle should be never less than 800 RPM!)
- Adjustable Spark / Ignition Timing
- Automatic IAC Calibration, Speedometer Calibration
- Reduces or Eliminates Exhaust Decel Pop
- Diagnostic Code & Digital Tech Compatible
- Running Statistics & Logs
- Start Fuel Pulse, Engine Temp Alarm Setting
- Injector Size Compensation
- Live Engine Tuning, Monitoring, Recording
- Map Analysis & AutoMapping
- Nitrous & Supercharger Compatible
- One-Button Support
- Three Year Limited Warranty
- Made In USA

**And Many More!**

**645554** ThunderMax ECM with Integrated Auto-Tune System (18 mm Lampda) Fits 12-15 Softail (FXST), Dyna (FXD) Models

## ***Jammer "Tear Drop" Style Air Cleaner Assemblies by Paughco***

Designed and styled after the Tear Drop Air Cleaners of the past, these beauties are made of cast aluminum, polished, then brilliantly chrome plated. Measure 8" wide, by 4 1/2" high & 2" deep. Available in either Slotted or Non-Slotted and Smooth or Ribbed styles. Offered in versions to fit either S&S E and G carbs, or CV-Keihin 98-06 and Delphi EFI 01-15. Fittings included where required. Made in USA.

Note: Will not fit Magneti-Marelli EFI systems or Touring models 08-Up.

### ***Slotted Styles:***

- 651294** Tear Drop Smooth Slotted A/Cleaner Cover for S&S E/G carbs
- 651295** Tear Drop Smooth Slotted A/Cleaner Cover for Keihin 88-06, Delphi EFI's 01-15
- 651296** Tear Drop Ribbed Slotted A/Cleaner Cover for S&S E/G carbs
- 651297** Tear Drop Ribbed Slotted A/Cleaner Cover for Keihin 88-06, Delphi EFI's 01-15 (except Touring 08-15)
- 651451** Replacement Air Filter for Slotted Smooth and Slotted Ribbed Tear Drop Air Cleaners

### **4 Piston Classic Caliper & Bracket Rear**

Bracket is bottom mount universal, includes anchor rod and weld on tab. This is also the best set up for right side drive customs. PM recommends increasing disc size from 10" to 11.5" for more braking power. Fits all years for disc brake wheels and right side drive customs

#### **For 11.5" brake discs**

**684177** 3/4" axle bracket, black (only bracket, w/o anchor rod and weld on tab)

CATALOG "EDITION 45" PAGE 13.81

### **4 Piston Differential Bore Caliper**

The most powerful 4 piston front caliper available anywhere! Caliper bolts directly to fork. Order 1 left caliper for single disc and 1 right and 1 left for dual discs. Must order caliper bolt kit to fit a Heritage Springer fork.

Will not work with 08-09 FLH or 06-09 V-Rod models which utilize a brake master cylinder with a reduced piston size. Customers who opt for the PM 4 piston differential bore calipers must upgrade to an 11/16" brake master cylinder for optimal performance.

#### **Left side caliper**

**684279** Fits 11.5" brake rotors, contrast cut

**684280** Fits 11.5" brake rotors, chrome

#### **Right side caliper**

- 632800** Black Fork Boots-49 mm Short. Fit FXD Dyna
- 632802** Black Fork Boots-49 mm Long, FXDWG Dyna Wide Glide

### ***Progressive Suspension 'Drop-In' Front Lowering Kits***

Forget everything you know about lowering motorcycle front ends. Progressive Suspension has just completely changed the game! Pull up to 2" out of the front end of your bike without the hassle of disassembling the forks, pulling the front wheel or even changing the fork oil and the whole process can be done with basic tools.

**680030** Fits all 88-13 Sportster models (except Sport model)

**680031** Fits 91-92 FXD/B/C, 93-05 FXDL, 94-00 FXDS-Conv, 95-05 FXD/C, and 99 FXDX models

**680032** Fits 08-13 FXCW /C models and 06-15 FXD/B/C/L/WG/35 (except Fat Bob model)

**680033** Fits all 80-13 Touring models with NON-CARTRIDGE style forks and all 84-15 Softails (except FXCW /C models)

**680034** Fits all 02-05 Touring models with CARTRIDGE style forks

## 10 inch Struts by Biltwell

These Struts were developed for Sportsters but could be used on any bike that will accept 10" eye to eye struts with 1/2" bores for shock bolts/studs. They are finished with a super durable black electroplate finish. Built from burly DOM tubing, sleeved and TIG welded for strength. You can install these yourself with a crescent wrench in about five minutes if you stop in the middle of the job to get another beer. Make sure you have enough clearance between your tire and fender/tailight wire, etc. Some Sportster models may require a little clearancing on the back side of the lower boss to make room for the axle nut and washer.

**684726** 10" struts with 1/2" bore for use with most Sportster models and custom applications.

## ★CUSTOM★

### 'OneTonHo' and 'TwoTonHo' Custom Rear Fenders

Designed specifically for wide rigid frames. Fenders feature internal wiring loom and a belt cutout. The 'TwoTonHo' has built-in fender supports pre-drilled for turn signals while the 'OneTonHo' has no supports.

- 13530** 9"-wide 'TwoTonHo'
- 13531** 9"-wide 'OneTonHo'
- 13526** 8 1/2"-wide 'OneTonHo'

**LOWBROW  
CUSTOMS**  
*Where the action is!*

### **DIY Fender Strut Kit by Lowbrow Customs**

We put together this fender strut kit using some of our bungs. Included are:

- (2) Full Radius Bungs, 3/8"-16
- (2) Counterbore Bungs, 3/8"
- (2) Threaded Bungs, 3/8"-16, 1/2" long
- (2) Stainless Steel Allen Head Cap Bolts
- (2) Stainless Steel Allen Head Bolts
- (2) Pieces 1/2" thick Cold Rolled Steel, each 18" long

This includes what you need to make some nice, clean fender struts that are beefy enough to support your fender and then some. All bungs and the steel rod are cold rolled mild steel, easy to weld and then paint, powder-coat or chrome however you want it.

**619806** DIY fender strut kit, steel

**619807** DIY fender strut kit, stainless steel

## Dakota Digital

### **Dakota Digital CAN-Bus LED Series Digital Information System**

Features include an adjustable speedometer (selectable as MPH or KM/h), adjustable tachometer that can also be displayed in the digital readout, fuel range to empty, clock, odometer with two resettable trip meters, engine cylinder head temperature, check engine indicator, security, low fuel, voltmeter reading with low voltage warning, resettable service miles, resettable hour meter, high speed recall, high rpm recall, user settable count-down service meter with warning, 0-60 mph timer, 1/4 mile timer, 1/4 mile speed, gear position display compatible with 3 speed through 7 speed transmissions, and adjustable rpm warning point with output for external shift light. Compact unit that will fit in the factory opening of the Harley Davidson Dynas, Sportsters, and some Softails. Displays self dim at night for convenience. Odometer is user settable at installation to match vehicle mileage.
