SOFTAIL BREAKOUT 2018

WHAT'S --- BOAR?

Since 2009, Custom Chrome Europe has inspired the scene with a new slogan: „Bolt On and Ride“. While neither „Bolt On“ nor „Ride“ are new themes in a long established and creative customizing scene, the CCE team has successfully combined both themes into now annually built custom bikes which are based on existing motorcycle models that are modified with the latest and best parts available from the worldwide aftermarket. „Bolt On“ stands for easy to mount custom parts, some to be installed by the owner or garage customizers, others, more sophisticated parts, by professional CCE partners, custom shops or authorized Harley-dealers – but it never stopped the individual builder from further individualization, be it by color, surface finish treatment, engravings or what ever creative ideas come to mind. And the “Ride” part? This not just for pleasure, but assures the CCE team that these parts will work under rough and sometimes extreme conditions when the CCE team is “On the Road” to events all over Europe. But yes, the “Ride” part is also fun ...

Moccarica

Another CCE premiere for the “Bolt On an Ride” bikes: With the introduction of the “Milwaukee Eight” motor into an all new rolling chassis that united the Dyna and Softail model lines into one common frame and suspension system, Harley-Davidson surprised the world wide custom scene in September 2017. While retaining the traditional model designations and names, few if any parts of the previous “Twin Cam” powered motorcycles would fit the 2018-up Softails, creating new challenges as well as new opportunities! This was asking for an experienced customizer, playing in the “first league” of the German custom scene. Rick’s Motorcycles in Baden-Baden, long time CCE partner – is the first to create a “Bolt On and Ride” bike from the new Softail models – and the Rick’s team did so with its extreme skills and focus on detailing. From a 2018 FXBR “Breakout”, Rick’s has created a stunning custom “Lowrider” with air-suspension and excellent ridability that out-performes many “stock” Harley models.
