FLSTC

SOFTAIL HERITAGE CLASSIC 2008

WHAT'S BOAR?

Since 2009, Custom Chrome Europe has inspired the scene with a new slogan: „Bolt On and Ride“. While neither „Bolt On“ nor „Ride“ are new themes in a long established and creative customizing scene, the CCE team has successfully combined both themes into now annually built custom bikes which are based on existing motorcycle models that are modified with the latest and best parts available from the worldwide aftermarket. „Bolt On“ stands for easy to mount custom parts, some to be installed by the owner or garage customizers, others, more sophisticated parts, by professional CCE partners, custom shops or authorized Harley-dealers – but it never stopped the individual builder from further individualization, be it by color, surface finish treatment, engravings or what ever creative ideas come to mind. And the “Ride” part? This not just for pleasure, but assures the CCE team that these parts will work under rough and sometimes extreme conditions when the CCE team is “On the Road” to events all over Europe. But yes, the “Ride” part is also fun ...

THE FUSION

Martin Becker is usually not the „bolt on“ type of customizer, so it took some convincing to talk him into building his first CCE BOAR bike. But then, CCE let the leash hang loose, so there was enough freedom for him to create what he can do best: Build a stunning street machine for the road! Looking from the base for this cool Street Ride, there is hardly a Harley-Davidson model that has more parts to dispose off than the FLSTC „Heritage Softail Classic“. The plushy floorboard equipped touring version of the Softail Twin Cam, a solid cornerstone of the Harley-Davidson model line for decades, is likely to be his „nightmare“ when it comes to customization – because almost every part of this bike had to be exchanged! The „bolt off“ part of this build was ruthless: Everything but frame, swingarm and engine was dismantled and disposed. There it was: A naked (unrolling) chassis and the drive train, ready to be reborn in modern „New School“ interpretation, ready to rock the road.
